SAHYADRI (SECO) Make Multitone Alarm (2 DC + 1AC input) – 96 Sq. mm series is designed with advance technology, universal input Voltage, High Volume with field proven model for all types of fields and environmental conditions. This unit is suitable to take 2 DC & 1AC separate inputs and will give three separate tones – Intermittent sound for one DC input, Continuous sound for second DC input and Bell sound for AC supply input. If two or more inputs are given, then output will be of different sounds with intervals. This will be used in various Industrial automation applications, Control panels for fault Annunciation as audio output and it is a cost saving unit (use one unit in place of three units). Three tones in a single unit is provided to distinguish the various faults with separate inputs.

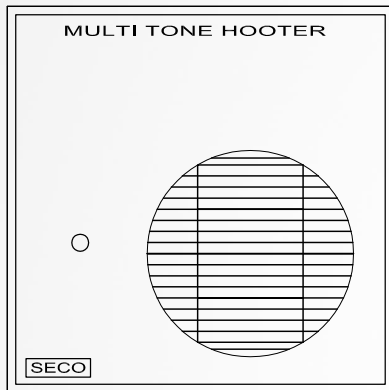

FEATURES:-

- Advanced Peizo Technology
- This is equals to 3 no. Hooters/Buzzers
- High volume sound output
- Multi Tone selection
- Audio ON LED Indication
- Universal supply Voltage
- Multiple Supply input
- Low power consumption
- ABS Plastic Enclosure
- Low Depth
- Suitable for Surface & Projection mounting

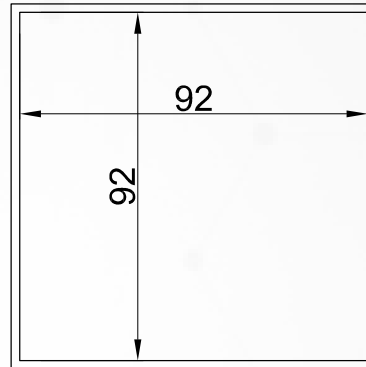

TECHNICAL SPECIFICATION:-

- **Supply Voltage:** DC - 20 to 275V, AC- 75 to 275V
- **Sound output:** 90dB
- **Burden:** Less than 1.5W
- **Tone:** 3 TONE - Intermittent, Continuous & Bell sound
- **Sound:** Separate sound for all three inputs – Intermittent, continuous & Bell sound
- **Input:** If Any two or three inputs are given simultaneously, then all three sounds will come with 3 sec interval
- **Panel cutout:** 92 x 92 mm
- **Facia size:** 96 x 96 mm
- **Depth:** 45 mm
- **Weight:** < 250 grams
